

CLP SERIES TWO-WAY RADIO

FOCUSED. STYLISH. CONNECTED.

CLP SERIES TWO-WAY RADIO

FOCUSED. STYLISH. CONNECTED.

With rising pressure of online shopping and visitor reviews, customer experience is a top priority. Your team needs to connect instantly, respond quickly to address customer requests and provide premium service. From back-of-house to front-of-store, the CLP Series is your stylish and essential team communication tool - built to last all day, everyday in retail and hospitality.

SIMPLE AND SLEEK

The lightweight, palm-sized radio design helps you discreetly and comfortably carry the CLP with you through extended shifts. The sleek design is combined with essential controls to provide you with everything you need to stay connected.

OPERATE EFFORTLESSLY

Simple-to-use radio operation helps users focus less on the radio and more on the customer. The smart status glow ring lets users quickly check essential radio information at a glance. The large centrally located push-to-talk (PTT) button, and voice assisted operations to change menu options mean team members can operate the radio while staying focused on the customer.

DAY-IN, DAY-OUT PERFORMANCE

Designed to protect your investment, the CLP is IP54 rated to resist dust and water that could otherwise damage the radio. When paired with a durable earpiece, the CLP can stand up to your busiest days and heaviest uses. Working an extended shift? No problem; the long lasting battery helps you power through up to 18 hours of communication and collaboration.

PERSONALIZE AND CUSTOMIZE

CLP offers two models and versatile accessories to compliment your staff and work environment. Available with up to 8 channels, and repeater capable, your business can organize team communications in the space you need. Multiple accessories are available to create flexible wearable options with the CLP, including a magnetic clip and different earpiece options. You can even customize radio settings with the Customer Programming Software (CPS).

OPERATIONS AT A GLANCE

POWER THROUGH BACK-TO-BACK SHIFTS

Long lasting battery

Operates for up to 18 hours to help your teams power through extended shifts.

Loud and clear audio*

Clear and crisp audio performance in any environment. Adjust between 15 volume levels.

Smart status glow ring

8 colors to indicate active channel, radio transmit & receive, scan, volume level, mute, and battery status.

Push-to-talk button

Large, textured, and centrally located to provide easy access for eyes up operation.

Durable polycarbonate housing

IP54 and MIL-STD 810H rated to protect the radio from dust, water, vibration, shock and temperature extremes.

*Earpiece required for operation. See page 7 & 8 for options

FEATURES TO KEEP YOU CONNECTED

CLP RADIO MODELS

Single and 8 channel models available give you the flexibility to choose a radio model that suits your work group needs. Keep the team fully connected on 1 channel or choose a separate channel to keep your staff focused on their roles.

ESCALATE CALL

Initiate an important call or alert users on another channel to immediately communicate a message in high-risk situations, keeping your teams and assets safer when an incident occurs.

PRIVACY CODES

Choose between 219 codes to add a level of privacy to your business conversations from neighboring groups.

VOICE GUIDED NAVIGATION

Help your staff to easily learn the system with voice guided menus. The CLP allows you to use pre-defined voice prompts for your channels or add custom voice prompts to help your staff identify the channel they should be using.

REPEATER CAPABLE

Increase range with a Motorola Solutions repeater. Stay in touch with your team and in control of your business up to 250,000 sq/ft.

SCAN

Easily check radio activity for faster, more efficient communications across multiple channels.

ACCESSORIES

COMPLEMENT YOUR WORK STYLE WITH
A VARIETY OF CLP RADIO ACCESSORIES

CLPe STANDARD IN-LINE PTT EARPIECE - PMLN8077**

Exclusively designed for the CLP Series, this advanced earpiece provides high audio quality, all-day comfort, and a long accessory life.

EARHOOK

The rubber earhook provides comfort for long shifts and allows the speaker to fit over the ear canal for higher quality audio in noisy environments. The optional removable ear tips can be used to improve noise isolation and hygiene between shift users.

SLIM-LINE PTT BUTTON

The earpiece wire fits close to the body with the help from the wire clip and a streamlined button with built-in microphone.

REINFORCED COIL CORD

Designed for heavy use through long shifts.

TWIST AND LOCK CONNECTOR

Securely attaches the earpiece to the radio increasing accessory life.
